## Front-End Developer

Creative and results-driven Front-End Developer with hands-on experience designing and developing responsive, accessible, and high-performance web applications. Proficient in React, JavaScript, HTML/CSS, and Java, with a solid understanding of UX principles and cross-browser compatibility. Background includes international education and freelance work, demonstrating adaptability, independence, and global communication skills.

## Technical Skills

- Front-End: HTML, CSS (SASS/SCSS), JavaScript, TypeScript, React, Next.js, Redux.js
- UI/UX & Responsive Design: Media Queries, Flexbox, Grid, Figma
- Version Control & Collaboration: Git, GitHub
- API & Data Handling: REST APIs, JSON, AJAX, Fetch
- Build Tools & Testing: Webpack, Babel, Jest, Cypress
- Soft Skills: Problem-Solving, Collaboration, Attention to Detail, Continuous Learning
- Other Skills: Performance Optimization, Cross-Browser Compatibility, Debugging, Secure Coding Practices

## Professional Experience

Front-End Developer Freelance | Remote | 2023 – Present

- Designed, developed, and maintained responsive and interactive websites using HTML, CSS, JavaScript, and React.
- Translated design mock-ups from Figma into accessible web pages.
- Built and optimized front-end components and UI features using React and CSS frameworks.
- Integrated RESTful APIs to fetch and display real-time data dynamically.
- Debugged, tested, and optimized code for cross-browser compatibility and performance improvements.
- Collaborated with cross-functional teams including designers and back-end developers to ensure seamless application workflows.
- Contributed to unit and end-to-end testing using tools like Jest and Cypress.
- Improved SEO and accessibility, ensuring all web solutions followed best practices.

## Projects

Mapy App – Workout tracker with geolocation (Leaflet.js), UI animations, and local storage persistence.

Omnifood Website – Responsive food delivery website with mobile-first design and real-time UI interactions.

Banking App – Secure banking app supporting transactions, loans, and account management with JavaScript.

## Education & Certifications

- Oracle Certified Associate, Java SE 8 Programmer

- The Complete JavaScript Course (Udemy)
- Build Responsive Real-World Websites with HTML and CSS (Udemy)
- Bachelor of Science in Civil Engineering (University of Construction, Bucharest, Romania)
